Re: Replacement of 2005 tractor, front mount mower and snow broom.

From: Paul Klinzing

I would like to accept the quote from Sloan's in Monroe to replace our 2005 John Deere 1565 36HP tractor, 72" front mount mower, cab and 60" snow removal broom with a similar unit. The new unit would be a 2016 John Deere 1585 37HP tractor with a 72" front mount mower, cab and 60" snow removal broom. The price of the new tractor and equipment is \$37,980 less \$9100 for the trade of the 2005 tractor and equipment for a net price of \$28,790. There are sufficient funds in the Park Department fund balance for this purchase. The 2005 tractor has over 3000 hours on it. It is used along with a 2008 John Deere 1565 tractor to mow all of our park areas except for Twining. We also have 20 locations where we do snow removal from sidewalks that these tractors are used for. The new tractor would be able to use a 60" snow blower attachment that we currently have along with the broom and mower deck we have for the 2008 tractor. In the past we were able to get a quote from Studer's or now Hennessey Implement on New Holland equipment as they had comparable 36 HP tractors with front mount mowing decks and snow removal equipment but New Holland recently stopped making commercial turf and snow removal equipment.
